

HASSAN RJ

FRONTEND DEVELOPER

Hello! I'm Hassan, a dedicated student immersed in technology. I'm expanding my expertise in cloud computing, generative AI, Web 3.0, and full-stack development. With hands-on experience at Governor House, I specialize in web development, creating compelling graphics and logos, and excelling in typing jobs. My primary focus is on programming, where I strive to innovate and excel.

Experience

Full Stack Developer (Governor's House)

Governor House Karachi Oct 2024 - present

Currently learning Full Stack Development at Governor's House, focusing on technologies such as Next.js, MongoDB, and Node.js. I am enhancing my skills to build dynamic web applications and deepen my understanding of full-stack concepts.

Senior Student at GIAIC

Governor House Karachi Apr 2024 - Sep 2024

Advanced to a senior role among 500 students, focusing on frontend development with Next.js and Tailwind CSS. Through practical projects, I honed my skills in building responsive user interfaces and assisted peers in core frontend concepts.

Frontend Developer

Governor House Karachi Nov 2023 - jun 2024

As a frontend developer, I create user-friendly web interfaces using the latest tech stack—Next.js, Tailwind CSS, and TypeScript—along with HTML and CSS. My work enhances communication and accessibility, delivering seamless and modern digital experiences.
